

SCAFFOLDING SUPPLIES LIMITED

- Aluminum checkerplate anti-slip work platform

- 2x gravity assisted locks to secure step to scaffold tube.

- Adjustable to two different heights.

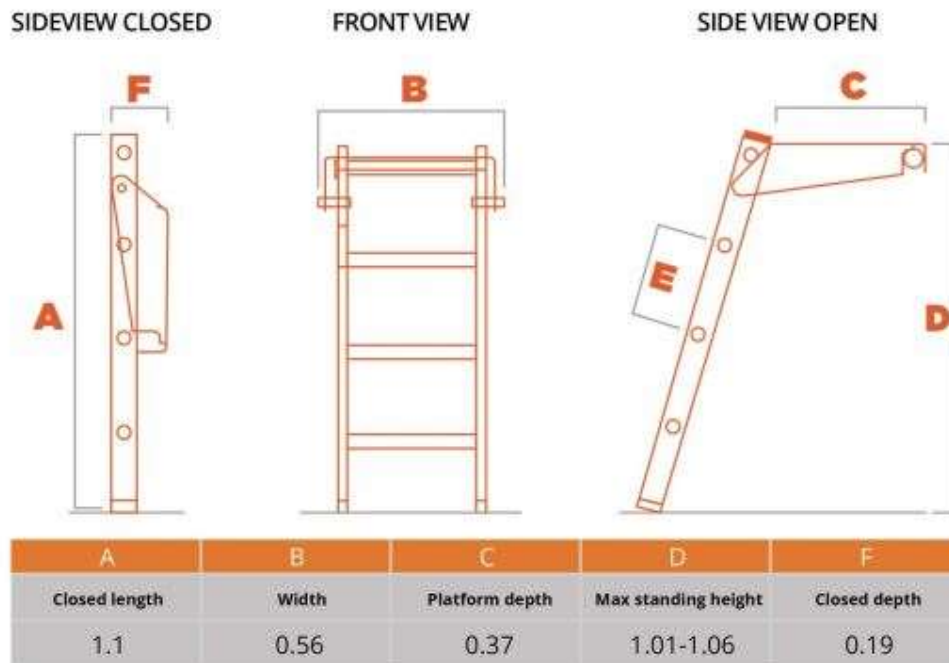

- Flat top, grooved rungs for increased stability and grip.

- Adjustable swivel feet, level platform for all systems as well as tube and fittings. Secure footing on any surface.

Folds Flat: Easy handling, transport, and storage are facilitated by the Scaff Step's ability to fold flat.

Lightweight: Weighing only 6.8kg (platform), 4.5kg (ladder), and 2kg (adjustable feet), it ensures portability without compromising durability.

Anti-Slip Technology: Enhanced safety with a non-slip working surface in durable aluminum.

Height Adjustable: The platform offers height adjustability to cater to diverse project needs.
